DETAILED ACTION

Claim Objections

1. The numbering of claims is not in accordance with 37 CFR 1.126 which requires the original numbering of the claims to be preserved throughout the prosecution. When claims are canceled, the remaining claims must not be renumbered. When new claims are presented, they must be numbered consecutively beginning with the number next following the highest numbered claims previously presented (whether entered or not).

Misnumbered new claim 26 been renumbered to claim 30.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kory Christensen on 17 March 2006.

The application has been amended as follows:

In claim 1, lines 17-18, "wherein relatively larger packet sizes are selected for a relatively smaller number of packets capable of being buffered in memory" has been changed to:

-- simulcasting said multimedia streams using packets of a second defined packet size, said second defined packet size adapted to be processed by one or more legacy multimedia receivers. --

Please cancel claims 6 and 26-29.

Please cancel renumbered claim 30, as discussed above.

Please add:

31. (new) The method as in claim 1, wherein relatively larger packet sizes are selected for a relatively smaller number of packets capable of being buffered in memory.

3. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 and 12, prior art of record fails to show or reasonably suggest: simulcasting (simultaneously broadcasting) the same content with different packet sizes in consideration with the claim as a whole, as captured in claim 1 as:

"simulcasting said multimedia streams using packets of a second defined packet size, said second defined packet size adapted to be processed by one or more legacy multimedia receivers,"

and claim 12 as:

"simulcasting one or more streams in which said multimedia content contained in said plurality of PID packets is not combined into a single packet of said specified size."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Y. Koenig whose telephone number is (571) 272-7296. The examiner can normally be reached on M-Th (7:30 - 6:30).
